PROFESSIONAL SUMMARY

Frontend Developer with a B. Tech in Computer Engineering and hands-on experience building responsive web applications using React.js, Nextjs, JavaScript, and Tailwind CSS. Successfully mentored 30+ students on web development fundamentals while delivering client projects that prioritize clean code, performance optimization, and user experience. Passionate about creating accessible, mobile-first interfaces and solving complex UI/UX challenges.

TECHNICAL SKILLS

Languages & Frameworks:

JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, React.js, Nextjs

Tools & Platforms:

Git, GitHub, Vite, npm, VS Code, REST API Integration, JSON

Core Competencies:

Responsive Design, Web Accessibility, Version Control, Performance Optimization, Cross-browser Compatibility

PROFESSIONAL EXPERIENCE

Web Developer & Technical Tutor | Cephas ICT Hub

August 2024 – Jan 2026

- Developed and maintained 5+ responsive websites for clients, ensuring cross-browser compatibility and mobile-first design principles
- Mentored 30+ students on web development fundamentals including DOM manipulation, state management with React hooks, and modern CSS layouts
- Collaborated with technical teams to debug and optimize existing codebases, achieving 40% improvement in page load times through code splitting and lazy loading
- Guided learners through the full development lifecycle of real-world projects, emphasizing clean code architecture and industry best practices
- Built strong client relationships by actively listening to requirements, providing regular progress updates, and delivering projects on schedule

PROJECT PORTFOLIO

Boltin & Boltin Admin | React.js, Tailwind CSS, REST API

- Engineered a dual-platform security software solution featuring a customer-facing landing page and a robust administrative dashboard.
- Implemented secure authentication flows and integrated RESTful APIs to manage real-time device data and user permissions.
- Optimized dashboard performance using React state management, ensuring seamless navigation across complex data tables.

Rubies Technology Foundation | *React.js, Tailwind CSS*

- Collaborated in a team environment to build a high-performance foundation website, prioritizing web accessibility (WCAG) and mobile-first responsiveness.
- Developed reusable UI components to maintain design consistency and reduced codebase redundancy.
- Leveraged Git for version control and peer code reviews to ensure high code quality and maintainability.

Interactive Dice Game | *JavaScript (ES6+), DOM Manipulation, CSS3*

- Architected a logic-heavy browser game focusing on complex DOM manipulation and asynchronous event handling.
- Designed custom CSS key frame animations to simulate realistic dice rolls, enhancing the overall user engagement and interface interactivity.

EDUCATION

Bachelor of Technology (B. Tech) in Computer Engineering

Ladoke Akintola University of Technology (LAUTECH)

2020 – 2025 | Second Class Honours, Lower Division

PROFESSIONAL INTERESTS

- Staying current with emerging frontend technologies and frameworks
- Following industry trends in UI/UX design and web accessibility standards
- Continuous learning through online courses and technical documentation
- Mentoring aspiring developers and sharing knowledge through peer collaboration
